

AROUND THE WORLD

PLANET EARTH AND GLOBE

LEARNING OBJECTIVE:

To introduce children to global cultures, traditions, and diversity through creative and interactive experiences.

The "Around the World" celebration at our kindergarten was a vibrant and enriching event. Each KG1 and KG2 classroom represented a different country, beautifully decorated with crafts, models, and flags.

The children looked adorable in their traditional costumes and showcased impressive creativity through DIY items. A highlight of the event was the grand parade around the school, where students proudly displayed their outfits and flags. The excitement continued with a delightful photo session, capturing joyful memories.

This multicultural event helped our little ones appreciate global diversity in a fun and educational way. Special thanks to Nandita Ma'am, Athira Ma'am, and Sangeetha Ma'am for their dedication and effort. It was truly a magical and memorable celebration.

LEARNING OUTCOME:

Students were able to identify and represent different countries, recognize various cultural symbols, and develop an appreciation for diversity and global unity.
