

# CHILDREN'S DAY

## Playful, Curious, Growing

### **LEARNING OBJECTIVE:**

To promote social interaction and build positive relationships between teachers and students.

Our school celebrated Children's Day with great joy and enthusiasm for KG1 and KG2 students. The day began with a special outdoor assembly filled with excitement and cheerful smiles. Teachers presented a delightful story session followed by a lively role play, which captured the children's attention and created a joyful atmosphere.

The highlight of the celebration was the magical show that left the little ones amazed and curious. This was followed by an energetic dance performance by the teachers, which brought loud cheers and claps from the children. The assembly concluded with a fun-filled action song, where everyone happily joined in, making the moment truly memorable.

After the assembly, a lovely photo session was arranged to capture the children's bright smiles and happy expressions. As a special surprise, each child was gifted a smiley along with a personalized message from the teachers, making them feel loved and appreciated.

### **LEARNING OUTCOME:**

Develop a sense of belonging and emotional security within the school environment.
