Ensuring Safe and Official Digital Communication

Dear Parents,

Greetings from Wise Indian Private School!

As we continuously strive to maintain a secure, organized, and effective communication network between the school and our parent community, we are streamlining our digital communication protocols.

Please note that the only official class WhatsApp groups authorized by the school are those created and managed directly by the designated Class Teachers. These official groups are established solely to share vital academic updates, institutional circulars, and urgent announcements.

To ensure data privacy and prevent the spread of unauthorized or misleading information, please adhere strictly to the following guidelines:

1. Do not join any unofficial WhatsApp groups, student-created groups, or parallel parent forums claiming to represent the school or specific classes.
2. If you receive an invitation or a link to join any unauthorized group, you are advised to ignore the invite and block the sender immediately.
3. Please report any such unauthorized group invitations or links to your child's Class Teacher or the Head of Section immediately so that appropriate measures can be taken.

We appreciate your continued cooperation in fostering a safe, professional, and reliable communication environment for our school community.

Warm Regards,

Principal
Anjana Iraddi
