

E- Safety Activity

Day and Date	28-04-2025 Monday
Objectives	To help students recognize safe and unsafe online behaviors using visual prompts.
Participants	Grade 1 and 2
Activity	Students were shown images one at a time to identify whether the situation depicted was safe or not safe . They observed each image carefully and discussed their thoughts with the class.
Learning outcome	<ul style="list-style-type: none">• Students identified safe and unsafe online behaviors using visual examples.• They demonstrated an understanding of basic E-safety rules by responding correctly during the activity.• The activity encouraged students to think critically about their actions online and recognize potential risks.• Students became more aware of how to stay safe while using the internet and digital devices.
