

FIRST DAY OF SCHOOL

LITTLE STEPS, BIG SMILES

LEARNING OBJECTIVE:

It introduces a healthy routine for our little ones which fosters a sense of security and structure.

The first day of school for our KG learners was a delightful and joy-filled occasion as we warmly welcomed them into their new school family. With tiny hands holding crayons and eyes full of wonder, the day unfolded with warmth, laughter, and memorable moments.

The morning began with cheerful greetings and engaging ice-breaker activities, designed to ease the children into their new environment. Our little ones expressed their creativity by colouring and designing their own headgear, which they proudly wore as a symbol of stepping into their new roles as young learners.

A collaborative collage painting activity added vibrant splashes of colour to the day, encouraging teamwork and self-expression. This hands-on art experience set the tone for a creative and stimulating year ahead.

The day was a perfect start to what promises to be a year filled with love, laughter, and exciting learning adventures.

LEARNING OUTCOME:

Through this activity children were settled in the class and had a successful first day at school.
