

## Field Trip

<b>Day and Date</b>	21-01-26 to 26-01-26
<b>Objectives</b>	<ul style="list-style-type: none"><li>• To provide students with first-hand learning experiences about desert animals and plants</li><li>• To develop curiosity, observation skills, and environmental awareness</li><li>• To help students understand the desert environment and its importance</li></ul>
<b>Venue</b>	Sharjah Desert Park
<b>Participants</b>	Grade 1&2 students
<b>Activity</b>	<p>The educational trip to Sharjah Desert Park was organized for Grade 1 and 2 students. Students visited the Arabia's Wildlife Centre and other educational sections of the park, where they observed various desert animals, birds, reptiles, and plants.</p> <p>Teachers guided the students and explained how animals and plants survive in the desert climate. Students showed great interest and enthusiasm, asked questions, and followed instructions carefully. The trip was well planned, and safety measures were strictly followed.</p> <p>The visit provided students with an enjoyable and meaningful learning experience beyond the classroom.</p>
<b>Learning outcome</b>	<ul style="list-style-type: none"><li>• Students learned about desert animals, birds, and plants</li><li>• Students understood the desert habitat and its importance</li><li>• Students developed observation and inquiry skills</li><li>• Students improved social skills, cooperation, and discipline.</li></ul>
