

WISE UAQ

Amazing April - 2026 GRADE - 2

NEWSLETTER

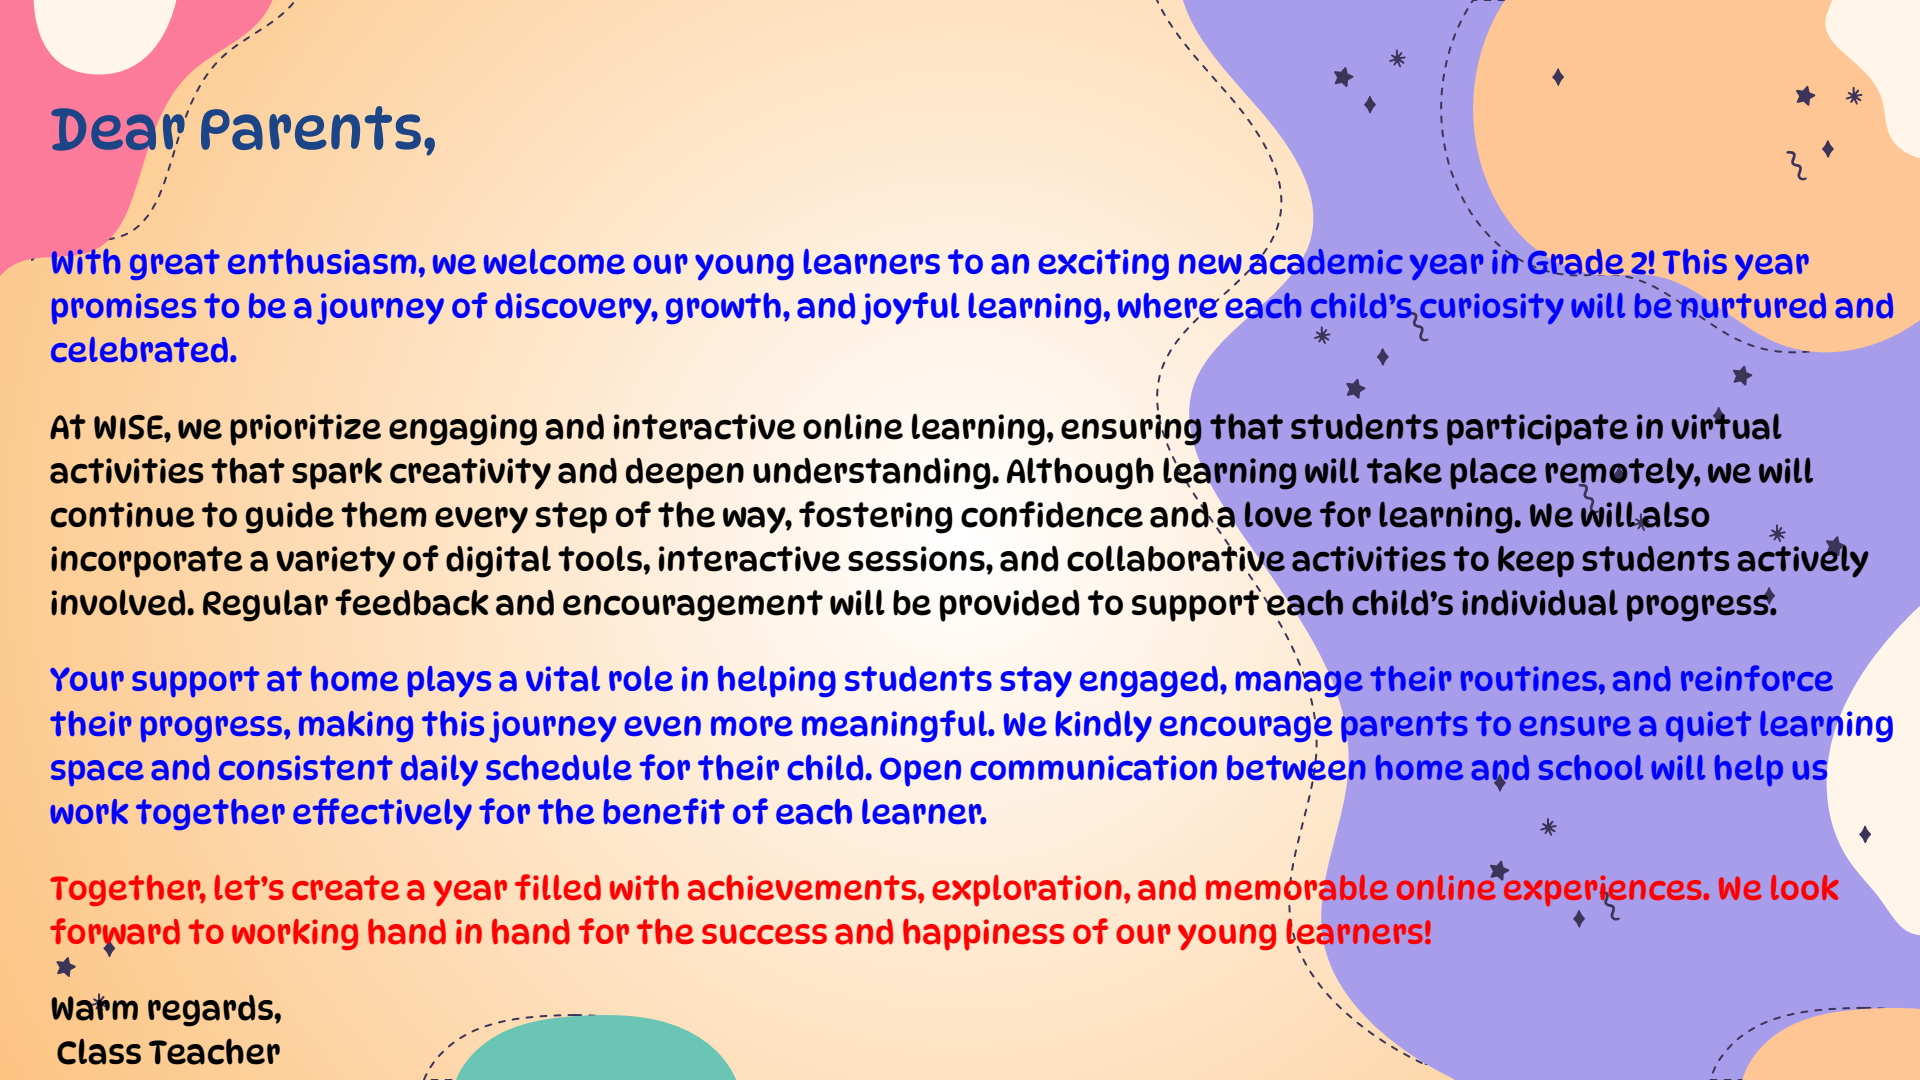

“If you dream it, you can do it.” —Walt Disney

MISSION

To empower students to become ethical, intuitive, compassionate and creative members of the society. We strive to support this by building a more comprehensive teaching and learning method that addresses the forthcoming future.

VISION

Every individual student is unique hence, we are committed to provide a stimulating and nurturing environment that will inspire and empower them to become more responsible, innovative, confident and well rounded.

Dear Parents,

With great enthusiasm, we welcome our young learners to an exciting new academic year in Grade 2! This year promises to be a journey of discovery, growth, and joyful learning, where each child's curiosity will be nurtured and celebrated.

At WISE, we prioritize engaging and interactive online learning, ensuring that students participate in virtual activities that spark creativity and deepen understanding. Although learning will take place remotely, we will continue to guide them every step of the way, fostering confidence and a love for learning. We will also incorporate a variety of digital tools, interactive sessions, and collaborative activities to keep students actively involved. Regular feedback and encouragement will be provided to support each child's individual progress.

Your support at home plays a vital role in helping students stay engaged, manage their routines, and reinforce their progress, making this journey even more meaningful. We kindly encourage parents to ensure a quiet learning space and consistent daily schedule for their child. Open communication between home and school will help us work together effectively for the benefit of each learner.

Together, let's create a year filled with achievements, exploration, and memorable online experiences. We look forward to working hand in hand for the success and happiness of our young learners!

Warm regards,
Class Teacher

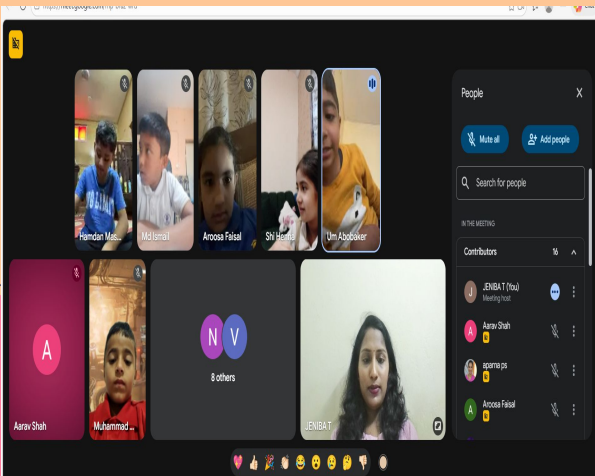

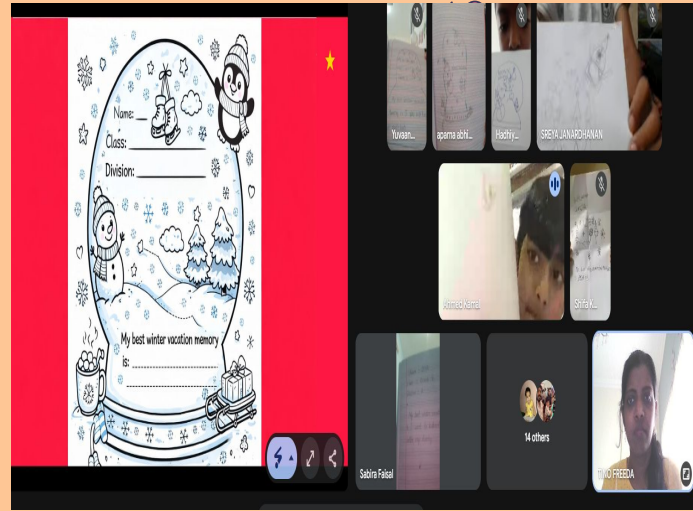

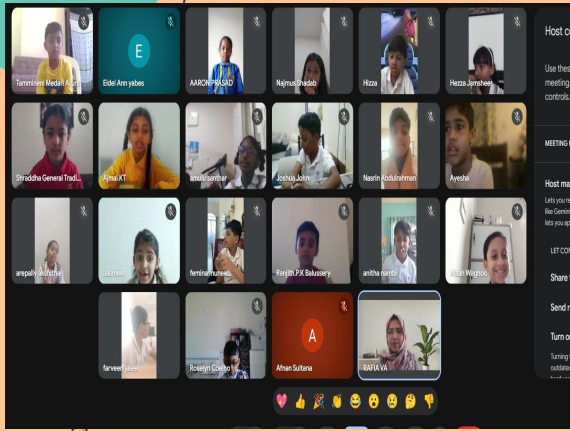

GLIMPSES OF ACTIVITIES

FIRST DAY OF SCHOOL

Our little stars kicked off the day by expressing their feelings in a fun and creative way—using virtual smiley icons and an online emotion chart to share how they were feeling inside. It was heartwarming to see their honest expressions and growing emotional awareness, even through the screen!

They also enjoyed a cheerful virtual tour, exploring their online classroom and getting familiar with their digital learning space with curiosity and excitement. It was a simple yet engaging experience that helped them feel more comfortable and confident in this new way of learning.

EARTH DAY CELEBRATION

Our Grade 2 students celebrated Earth Day with great enthusiasm and creativity through a special “Trash to Treasure” activity. Using recycled materials such as plastic bottles, cardboard boxes, and old newspapers, students transformed everyday waste into useful and imaginative items. From decorative crafts to practical objects, their creations beautifully reflected the idea that small efforts can make a big difference in protecting our environment ♻️.

Adding to the celebration, each student brought a plant from home, and together we created a vibrant and refreshing classroom garden 🌿. The children carefully arranged the plants, learning how to nurture and care for them. This collective effort not only brightened up our classroom but also gave students a sense of responsibility and pride in contributing to a greener space.

Through these engaging, hands-on experiences, students developed a deeper understanding of the importance of reducing waste, reusing materials, and recycling. They also learned valuable lessons about caring for nature and the role each of us plays in protecting our planet.

The day was filled with excitement, creativity, and meaningful learning. It inspired our young learners to become more environmentally conscious and to take small but impactful steps towards a healthier Earth 💚.

A top-down view of a white, rectangular card with the words "Thank you" written in a purple, cursive, hand-drawn font. The card is placed on a light-colored, marble-textured surface. To the top-left of the card are three macarons: one pink, one light green, and one light brown. To the right of the card is a small sprig of purple bell-shaped flowers with green leaves. In the bottom-left corner, there is a blurred sprig of similar purple flowers. In the bottom-right corner, a portion of a white bowl containing a dark brown liquid, likely soup, is visible. A red and white striped string is coiled in the top-right corner.

Thank
you
