

INTERNATIONAL DOT DAY

CREATIVITY, COURAGE, AND COLLABORATION

LEARNING OBJECTIVE:

To explore creativity through drawing, coloring, and art activities.

Our little learners from KG1 and KG2 celebrated International Dot Day with great creativity, colors, and imagination. The children looked delightful in their special dot-themed outfits, filling the classrooms with brightness and cheer. Each dot symbolized a story of uniqueness, creativity, and confidence, making the celebration truly meaningful.

The day began with a series of engaging activities inspired by the theme of dots. Children participated in drawing, coloring, and creating imaginative dot art. These activities not only encouraged artistic expression but also gave the children opportunities to explore their creativity and individuality.

International Dot Day served as an important reminder for our students to believe in themselves and their abilities. The celebration left them inspired to “make their mark” with confidence and joy. It was indeed a fun-filled and enriching experience that promoted creativity, self-expression, and the value of individuality among our KG1 and KG2 learners.

LEARNING OUTCOME:

They applied creativity and imagination in dot-themed art activities.
