

AROUND THE WORLD

“Culture, Diversity, and Unity”

LEARNING OBJECTIVE:

To introduce children to the seven continents and their names.

KG1 and KG2 enjoyed a fun-filled **Around the World Celebration** that introduced them to the wonders of our world. The children explored the seven continents through an engaging presentation and interactive discussions, helping them identify and name each continent with confidence. They enthusiastically sang a cheerful song about travelling around the world and learned simple greetings from different countries. As part of the learning activities, the children wrote the names of the seven continents in their portfolios and drew pictures representing four different countries. They decorated their work with colourful national flags, expressing their creativity and appreciation for different cultures. The celebration was filled with excitement, curiosity, and joyful learning. It helped the children develop early geographical awareness, communication skills, creativity, and a better understanding of the diversity and beauty of our world.

LEARNING OUTCOME:

They learned simple greetings from different countries and participated enthusiastically in songs and discussions.
