

DEAR TIME IN SCHOOL

“Challenging, Fun, and Inspiring”

LEARNING OBJECTIVE:

To develop a love for reading and books and improve vocabulary and language skills.

KG1 and KG2 students enthusiastically participated in **DEAR (Drop Everything and Read) Time**, enjoying a dedicated period to read and explore a variety of age-appropriate books. The activity created a calm and engaging learning environment where children developed an interest in stories, pictures, and new words.

Through regular reading, students strengthened their listening, comprehension, and language skills while nurturing a lifelong love for books. Parents are encouraged to continue DEAR Time at home by reading with their children every day, helping to reinforce positive reading habits and vocabulary development.

Together, school and home can inspire confident, curious, and enthusiastic young readers.

LEARNING OUTCOME:

Children showed enthusiasm and interest in reading books and they expanded their vocabulary and improved listening skills.
