

# FIRST DAY OF VIRTUAL LEARNING

## “Convenient, Engaging, and Dynamic”

### **LEARNING OBJECTIVE:**

To familiarize students with the online classroom, encourage participation, and promote creativity through interactive activities.

The first day of school for KG 1 and KG 2 learners was a joyful and engaging online experience as students were warmly welcomed into their new virtual classroom environment. The session began with cheerful greetings and interactive ice-breaker activities, helping children feel comfortable and connected. Students participated in creative tasks such as Clay making and sharing their work on screen, fostering confidence and self-expression. A collaborative virtual art activity encouraged participation and added a sense of fun and creativity to the session. The session successfully created a positive and welcoming atmosphere, marking a wonderful beginning to the academic year filled with enthusiasm, creativity, and engaging learning experiences.

### **LEARNING OUTCOME:**

Students participated actively, expressed their creativity through clay making and art, and showed comfort and confidence in the virtual learning environment.

**DATE: 03-April-2026**
