

PINK DAY

Hope, Strength, Awareness

LEARNING OBJECTIVE:

To develop understanding of love, care, and empathy.

Our KG1 and KG2 children celebrated Pink Day to spread awareness about care, love, and breast cancer. The children came dressed in pink outfits and spoke appreciatively about their mothers, recognizing the care and affection they provide.

In class, children learned the importance of showing love and care to their mothers. They participated in a special activity where they wrote “I love my Mom” and pinned a pink ribbon on their dress as a symbol of awareness.

The day encouraged empathy, self-expression, and participation in social awareness initiatives. Children demonstrated understanding of love and care, developed verbal and written communication skills, and enjoyed celebrating kindness and appreciation in a joyful, engaging environment.

LEARNING OUTCOME:

Children participated in a discussion about the importance of showing love and care to their mothers.
