

PURPLE DAY

AMETHYST, LAVENDER, AND VIOLET

LEARNING OBJECTIVE:

To explore color mixing and understand how new colors are formed.

Our KG1 little ones celebrated Purple Day with great joy and excitement. The children came dressed in beautiful purple outfits, adding brightness and charm to the classrooms. The vibrant decorations and enthusiastic participation of the children made the day even more special. Teachers and students together created a cheerful atmosphere that highlighted the importance of colors in everyday life.

To make the celebration more engaging, the children took part in a fun color mixing activity. They experimented with red and blue paints, and with great curiosity discovered the magic of creating purple. Following this, the young learners used their purple paints to color different cutouts, showcasing their creativity and artistic skills.

The day was filled with learning, laughter, and creativity. Purple Day not only helped the children recognize and appreciate the color but also encouraged exploration, self-expression, and joy in learning. It was truly a memorable and enriching celebration.

LEARNING OUTCOME:

They demonstrated curiosity and understanding by mixing red and blue to create purple.
