

SHOW AND TELL

Modern, Diverse, Ambitious

LEARNING OBJECTIVE:

To increase awareness and knowledge about the UAE, including its Ruler, seven Emirates, national bird, and national flower.

Our KG1 and KG2 children proudly participated in an exciting Show & Tell activity focused on the UAE. The little learners confidently spoke a few lines about the country, sharing interesting facts about the Ruler of the UAE, the seven Emirates, the national bird, the national flower, and other key features of the nation.

The activity provided a platform for children to develop their speaking and presentation skills while expressing their knowledge about their country. It was delightful to see the students articulate their thoughts with confidence, enthusiasm, and pride.

Teachers observed that children were eager to share what they had learned, demonstrating both understanding and curiosity. Through this engaging experience, students enhanced their communication, self-expression, and listening skills.

The activity not only deepened children's knowledge of the UAE but also encouraged them to speak confidently in front of an audience, making it a memorable and enriching learning experience.

LEARNING OUTCOME:

Children listened attentively to peers and engaged positively during presentations.
